## WHEN SAFE AND EFFICIENT MOORING MATTERS!

The Timm™ Acera™ range of HMPE ropes is one of the preferred choices for the largest and most technologically advanced cruise vessels on earth. Offering high breaking strength, along with reduced mooring times, the Acera range's performance is as eye-catching as its colourful coatings.

### Features and benefits:

- › Lower weight – easier handling
  - Stronger than steel, but weighs only 1/7<sup>th</sup> of the weight
  - Weighs 1/3<sup>rd</sup> of same strength polyester rope
- › Lower dimensions
  - Reduced volume on winches
  - Takes up less space on deck
- › More efficient mooring operation
  - The rope can be handled by one person
  - Less resources spent on mooring
- › Reduced tie-up time
- › Stock points can be set up where you need us to be
- › Tailor made availability in key cruise ports
- › Tailored rope colours available
