

MARINE PRODUCTS

ONE OF THE BEST STRENGTH-TO-WEIGHT RATIOS!

The Timm™ Master range is the preferred rope of choice for much of the world's tanker fleet offering reliability and strength at a reduced cost. With an enviable strength-to-weight ratio and excellent abrasion resistance, Timm Master standardised mixed composition ropes are also type approved.

Features and benefits:

- › Excellent resistance to abrasion
- › Buoyancy to prevent propeller accidents
- › Long service life
- › Low total cost of ownership as a result of low maintenance costs
- › Easier purchase management
- › Everyone knows how to use them on board, regardless of the crew or vessel sailing pattern
- › Economy of scale – cost effective rope solutions

Timm™ Master
