

Product group: 400 Product number: 734046

The DP-PRO 200 presents a combination of innovative technology with performance, tested features and benefits in a rugged rotary planer unit.

Product information

The DP PRO 200 is a tough deck planer machine built to tackle the most demanding applications of surface preparation and material removal from large area steel deck surfaces.

At 45 kg it is light enough to easily manoeuvre between levels and the accurate depth control and variety of accessories enables material from light rust to heavy scale or paint to be removed at a rapid rate. Simple to use, the DP PRO 200 will take minimal operator training & requires little after sales management.

*Note: Product On Request Basis

Features

- Fully adjustable operating height
- Vacuum port as standard
- Accurate depth control
- Variety of accessories

Benefits

- Operator comfort
- Enable dust control if used with an industrial dust collector
- To regulate material removal to desired effect
- Offers the correct tool for every application

Specification

General

Invent Hazard Material (IMO/IU) classification	NA
Product type	Non-Standard

Dimensions/Weight

Connection [Size/ Type]	3/4"
Width [mm]	200

Technical data

Air consumption [m³/min]	4,6 m³-3-Vmin
--------------------------	---------------

Performance data

Rotation speed	1600 RPM
----------------	----------
