

Product group: 436      Product number: 721340

Consumable for Unitor™ Sandblasting Kit™.

Plan to have a set of extra sand suction nipples onboard to enable continues work.

Product information

Depending on the application, check condition of sand suction nipple. This consumable has a lifetime of 6 to 12 operating hours, depending on driving power, type and grain size of blasting agent. It must be replaced whenever needed, because operation with worn suction nipple results in irreversible damage of sand blasting equipment.
