

Product group: 436      Product number: 734036

Unitor™ Water break tank kit is a retrofit accessory for the 721520 HPCE 520 INOX and acts as a buffer tank mounted on top of the machine.

Product information

The Unitor™ Water break tank kit is ideal when the feed water pressure is unstable. The water tank is secured inside a stainless frame that is easily mounted on the machine's top plate.

Features

- 48 Litre Capacity
- Float switch controlled
- Includes all fittings and screws required for installation
- Includes easy to understand installation manual

Benefits

- Compensates water supply pressure fluctuations.
- Effective overflow control
- Supports continuous use without downtime
- Can be combined with Unitor™ HPCE 520 INOX machine
