

UNITOR HPC STATIONARY 3P

Product group: **435** Product number: **729403**

The Unitor™ HPC Stationary 3P is a flexible pump station that is capable of supplying up to 3 simultaneous operators with pressurized water for high pressure cleaning. Dependant on the amount of operators performing high pressure cleaning on board the vessel, the Unitor™ HPC Stationary detects the line pressure drop and will automatically activate the number of pumps being required.

Product information

This product supersedes product no: **613803**

Features

- Stainless steel frame and robust cabinet ensuring that pumps and electronics are well protected
- 3 pump system, each pump is equipped with four solid ceramic pistons
- Smart pump control system with touch screen at front panel
- Line pressures can be adjusted
- As water requirement drops, pumps will stop automatically
- Pumps operate on rotation to avoid excessive wear on single pumps
- The lower front panel can be opened for easy access to the pumps
- High level of serviceability, pumps and motors are quickly and easily removed

Benefits

- The pumps are installed on the frame with rubber dampers, and flexible connections to power and water
- Smart control system detects the amount of water required by the relevant number of operators and start the required pumps automatically
- Long life pump for intense applications
- Efficient operation and routine maintenance
- Up to 3 simultaneous operators

Specification

General

Invent Hazard Material (IMO/EU) classification	D-1
--	-----

Dimensions/Weight

Height [mm]	1800
Length [mm]	970
Weight [kg]	349
Width [mm]	1050

Technical data

Amperage [A]	44
Electrical phase	3
Frequency [Hz]	60
Ingress protection	X5
Inlet water temperature [°C]	70 maximum
Operating pressure [bar]	200
Power rating [kW]	27
Voltage [V]	440 V mains supply
Water flow rate [l/min]	63,3 maximum

Documents

[SDoC and MD for IHM](#)
