

# UNITOR HPC STATIONARY 6P

Product group: **435**    Product number: **729406**

The Unitor™ HPC Stationary 6P is a flexible pump station that is capable of supplying up to 6 simultaneous operators with pressurized water for high pressure cleaning. Dependant on the amount of operators performing high pressure cleaning on board the vessel, the Unitor™ HPC Stationary detects the line pressure drop and will automatically activate the number of pumps being required.

## Product information

This product supersedes product no: **613806**

### Features

- Stainless steel frame and robust cabinet ensuring that pumps and electronics are well protected
- 6 pump system, each pump is equipped with four solid ceramic pistons
- Smart pump control system with touch screen at front panel
- Line pressures can be adjusted
- As water requirement drops, pumps will stop automatically
- Pumps operate on rotation to avoid excessive wear on single pumps
- The lower front panel can be opened for easy access to the pumps
- High level of serviceability, pumps and motors are quickly and easily removed

### Benefits

- The pumps are installed on the frame with rubber dampers, and flexible connections to power and water
- Smart control system detects the amount of water required by the relevant number of operators and start the required pumps automatically
- Long life pump for intense applications
- Efficient operation and routine maintenance
- Up to 6 simultaneous operators

### This bundle contains:

**729404**    UNITOR HPC STATIONARY 4P

## Specification

### General

Invent Hazard Material (IMO/EU) classification	D-1
--	-----

### Dimensions/Weight

Height [mm]	1800
Length [mm]	970
Weight [kg]	526
Width [mm]	1050

### Technical data

Amperage [A]	87
Electrical phase	3
Frequency [Hz]	60
Ingress protection	X5
Inlet water temperature [°C]	70 maximum
Operating pressure [bar]	200
Power rating [kW]	53
Voltage [V]	440 mains supply
Water flow rate [l/min]	128,3 maximum

## Documents
