

ULTRASONIC CLEANER S-3300/HM, 440V

Product group: **664** Product number: **766956**

Unitor™ Ultrasonic™ cleaning machines are specially designed for use in the engine room on board to remove even the most stubborn dirt, cleaning inside areas that are out of reach for conventional cleaning methods. The S-3300/HM offers cleaning capacity with a length of up to 107 cm.

Product information

This product supersedes product no: **L37321**

Reduced manual work, reduced consumption of hazardous chemicals and improved cleaning performance without damage, compared to traditional methods.

Use of an Unitor™ Ultrasonic™ machine combined with suitable detergent makes it particularly effective for cleaning complex machine parts like injection nozzles, fuel and pump parts, inlet and exhaust valves, etc. The unit is well suited for cleaning of fine mesh fuel and lube oil filters which can be cleaned without damaging the fine filter elements.

New ECA regulations increase pressure on optimal performance. Cleaning of cleaning filters and fuel nozzles are required and Unitor Ultrasonic will enable such cleaning combined with Unitors fuel oil chemicals.

Ultrasonic cleans all surfaces which are covered with water. As a consequence it cleans in areas where no other cleaning technology can reach.

The S 3300 is only available on request. Contact WSS for delivery information

Features

- Sweep function - Using the sweep function means that a more homogenous sounding of the bath is achieved which results in improved cleaning performance through out the bath
- Low water level sensor prevent dry run
- Front mounted panel for electronics, enabling efficient servicing of electronics in the machine
- Efficient and fast heating

Benefits

- Reduced chemical consumption
- Cleans inside filters and fuel nozzles
- Large tank enables cleaning of larger filters
- Saves costs related to filters
- Logical operation panel
- Pulse function for increased cleaning power during operation
- Included shock absorbers for mounting on stand reduces vibrations

Specification

General

Invent Hazard Material (IMO/EU) classification	D-1
--	-----

Dimensions/Weight

Basket max loading (ca kg)	50
Dimensions L x W x H [mm]	1240 x 800 x 890
Weight [kg]	97

Technical data

Electrical phase	3
Ingress protection	23
Power [W]	8050 average
Ultrasonic peak perf Max [W]	8000
Voltage [V]	440
Working volume [l]	257 tank

Performance data

Capacity	383 ltr
Effective Ultrasonic Power [W]	2000
Heating capacity [kW]	6
