REGULATOR 530 AC PRESSURE 0-1.5 BAR FOR OUTLET STATION

Product group: **610** Product number: **510030**

The secondary regulator will regulate the acetylene pressure from the distribution piping to the twin-hose.

Outlet station spare part corresponding to Position 14 in the drawing.

Product information

This product supersedes product no: **5100301**

Unitor cylinder regulators for acetylene and oxygen are designed for reliability and safety in use as part of the gas distribution system. The large adjustment knobs are red for acetylene and blue for oxygen for easy identification of gas type. Both contents and working pressure gauges are clearly graded in psi and bar.

All regulators are delivered with spare washers, hose connection for 1/4" and 3/8", gas hoses and instructions for use. Unitor regulators ensure a correct and stable working pressure with sufficient capacity for all types of gas welding and cutting work.

- Easy identification of gas types with colour-coded adjustment knobs
- Immediate identification of gas pressure with easy to read gauges marked both in psi and bar
- Full capacity for all types of gas welding and cutting work
- Designed for use with Unitor Acetylene gas cylinders
- Full conformance with EN ISO 7291 / 2503

Safety

For safety reasons we strongly recommend to perform annual checking and testing of the pressure regulator, and to change the pressure regulator every 5 years. For vessels under OCIMF SIRE and RIGHTSHIP RISQ, replacement of the pressure regulator is mandatory after 5 years from date of manufacture. Manufacturing date code can be found on the pressure regulator.

Features

- Installed at gas outlet station
- Single stage secondary regulator
- Provides constant flow of gas at right pressure
- Built according to international norm EN ISO 7291

Benefits

- Provides safe working conditions
- Connects to all standard hose dimensions
- Long lasting quality
- Designed for maritime use
- Downward compatible with Unitor gas distribution systems for the past 25 years

Specification

General

Invent Hazard Material (IMO/EL) classification	NA
