# O2 2% IN N2 98% SG-10 FILLING

Product group: **718** Product number: **589044**

Span gases are used for calibration and bump testing of gas detection equipment.

## Product information

Gas Composition:

Oxygen (O2) - 2%

Nitrogen (N2) - balance

Paired with regulator 510011

### Features

- Delivered in a refillable SG10 cylinder.
- Small cylinder size makes it portable for bump testing needs.
- Each cylinder comes with a Certificate to confirm its contents.

### Benefits

- For your safety, the product is delivered in a Unitor exchange cylinder complete with barcode and unique cylinder serial number.
- We trace and track all cylinders using our system to give you peace of mind.
- We offer global availability through our Global Exchange Programme.

## Specification

### General

|  |       |
|--|-------|
| Cylinder Type                                  | SG-10 |
| Invent Hazard Material (IMO/EU) classification | NA    |

### Dimensions/Weight

|                         |                      |
|-------------------------|----------------------|
| Connection [Size/ Type] | W24.32mmx 1/14" Ext. |
| Diameter [mm]           | 140                  |
| Gross Weight [kg]       | 21                   |
| Length                  | 1000                 |

### Technical data

|                     |    |
|---------------------|----|
| Shelf life [months] | 36 |
| Volume (l)          | 10 |
