

Product group: 422 Product number: 778833

Unitor™ Mixing Station 4-14 can mix up to 4 different chemicals that are easily chosen by the selector wheel. By pressing the push button it quickly fills up the bucket with RTU dilution.

Product information

The Unitor™ Mixing Station 4-14 can be mounted in series allowing only one feedwater line.

Suction from up to 4 canisters of chemicals with up to 4 different mixing ratios.

Unitor™ Mixing Station 4 - 14™ is ideal for filling buckets, jet sprayers or floor cleaning equipment.

For filling of smaller bottles the 4 -4 is recommended.

The unit can also be connected in series with the Unitor Mixing Station 4-4.

Features

- Flow rates: 14 LPM
- Automatically and accurately dilutes chemical concentrates.
- Matches Unitor™ Easyclean series

Benefits

- Controls your chemical consumption
- Improved health and safety handling - reduced risk of spilling
- Standardized and correct dosing
- Easy to install, supplied with installation manual
- Low maintenance - no pump or electrical connection
