## Specification

### General

Invent Hazard Material (IMO/EU) classification	C-49
--	------

### Physical properties

Appearance	Colorless to pale yellow liquid
Density [g/ml]	0.9-1.0
Flash Point [°C]	>80
pH	7,0-7,5

## Documents

[IHM & SDoc](#)

## Directions for use

Navaclean 825 should be dosed/injected into the cleaning water in a concentration of 0.1 – 1%.

After tank washing, the tanks should be ventilated thoroughly prior to entering the tanks.

It is also possible to apply the product by hand spraying Navaclean 825 in a ratio 1:10 with freshwater.

Allow the applied product to react for a reasonable period.

Rinse thoroughly with freshwater.
