AQUAGUARD CW DOSING SYSTEM

Product group: **161** Product number: **777336**

AQUAGUARD™ CW is a chemical dosing system designed to safely control and apply corrosion inhibitors to engine cooling water circuits. The application of the chemical is controlled by conductivity measurement. The conductivity of the cooling water is proportional to the level of the engine cooling water treatment.

For use with the following products: Rocor NB, Nalfleet 2000, Cooltreat AL, EWT 9-108.

Product information

Features

- Controlled chemical application
- Treatment chemical dosed direct from the drum

Benefits

- Reduced chemical handling and improved Health and Safety
- Surety of application
- Improved corrosion protection

Specification

General

Invent Hazard Material (IMO/EU) classification	D-1
--	-----

Technical data

Voltage [V]	230V AC
-------------	---------
