# UNITOR™ AQUAFILTER SYSTEM STARTER PACK

Product group: **163** Product number: **779250**

According to the BIMCO report on reducing single-use plastic bottles onboard ships, a vessel with 22 crew members is estimated to consume around 12,000 plastic bottles annually. We at Wilhelmsen have created a solution to help our customers reduce their consumption of single-use plastic bottles. The Unitor™ Aquafilter System Starter Pack offers an efficient and eco-friendly alternative. This convenient pack includes a 5-stage Water Filtration system housed in an attractive casing, along with a complete pre-filtration set.

The system is equipped with modern in-line cartridges for quick and easy replacement. Through a precise combination of pre-filtration, water softening, granular activated carbon with advanced KDF® Media, and ultrafiltration treatments, the Unitor™ Aquafilter System ensures a continuous supply of fresh, clean, and great-tasting drinking water for your crew onboard, helping reduce plastic waste while promoting sustainability.

## Product information

**Unitor™ Aquafilter System Starter Pack** is a **compact and comprehensive** water purification system designed to enhance potable water quality onboard vessels. It ensures **safer, healthier, and better-tasting drinking water** for the crew while significantly **reducing single-use plastic bottle consumption**. With **low maintenance** and a **sustainable design**, it helps minimize plastic waste in oceans and landfills.

Supplied with

- **1x** Main filter cabinet with **5 pre-installed filter cartridges**
- **1x** Pre-filter housing with mounting brackets
- **6x** Pre-filter cartridges
- **1x** Chrome-plated single faucet with adapter
- **1x** Set of PE tubings (yellow & blue) for water inlet & outlet
- Valves, sealing tape, mounting tools, connectors, elbows, and clips

Features

- **Mineralizer:** Adds essential minerals, improves taste, and maintains pH
- Lasts up to 6 months\* of usage
- Includes a sleek chrome-plated faucet
- Pre-filter housing with dual O-rings for maximum leak protection

Benefits

- Provides clean, safe drinking water anytime
- Eliminates single-use plastic bottle issues
- Sustainable: No more plastic waste
- Enriched with essential minerals
- Easy installation and filter replacement
- Compact, tankless, and maintenance-free

## Specification

Technical data

Feed water pressure [bar]	3.5 / Optimal at 4 bars
Inlet water temperature [°C]	2 - 45
