POTABLE WATER TEST KIT

Product group: **661** Product number: **778419**

Improperly managed water on ships serves as a key pathway for infectious disease transmission, as evidenced by Rooney et al.'s review of 100+ outbreaks, with a fifth attributed to waterborne routes.
The WHO's "Guide to Ship Sanitation" emphasizes the ship operator's duty to ensure clean, pathogen-free water for all uses, necessitating constant monitoring, reporting of adverse results, and prompt corrective action under the IHR 2005.

Product information

This product supersedes product no: **777720, AND, 777721**

The Nalfleet Potable Water Test Kit range enables ships staff to monitor the quality of the drinking water on board the ship EPA approved tests for important operational control parameters and verification tests for bacteria that can be of risk to human health.

Supplied with:

Nalfleet Incubator x 1
E.Coli/Coliform (25 Tests) x 1 (EPA approved under 40 CFR Part 136.3)
Antibacterial Swabs (50) x 1
Thio bags 100ml (pack of 25) x 1
1ml Syringe Pack (potable) x 3
Stirring Rod Plastic Short 10cm x 1
Battery Operated UV Lamp x 1
UV Lamp Battery Pack(potable) x 1
Safety Glasses x 1
Polythene Gloves Large x 1
On Board Potable Water Log x 1
Wide Neck Bottle & Cap, 250ml x 2

Features

- EPA approved Colilert Test for the determination of E Coli and Coliforms
- Helps you to meet MLC 2006 recommendations for the quality of drinking water
- Includes compact and robust sample incubator
- Training video included

Benefits

- Incubator ensures that you achieve consistent test results
- Additional test kits can be added as required to meet flag state and/or company requirements
- Video supports you with crew training and competency

Specification

General

Invent Hazard Material (IMO/EU) classification	C-9

Approvals

ABS Certificate of Design Assessment
