

Product group: **663** Product number: **532414**

Accessory: Replacement cell for the Combined test kit.
This is the NEW digital cell with chargeable battery and PC connectivity for results download..

Product information

Unitor™ DIGI Combined Cell offers the flexibility of testing both water in oil and total base number (TBN). It provides a refreshed, but familiar, interface with the addition of smart features to enhance the user experience. You can easily set up sample points and transferred results to the computer. The unit is also chargeable and is capable of showing the number of tests available before charging is needed.

Test Parameter: Water in Oil/ TBN

Used with:

- 1. UNITOR EASYSHIP COMBINED TEST KIT (673154)

Features

- USB-rechargeable battery with indication of tests remaining before charge

Benefits

- Multiple oil parameters in an easy to use, portable oil analysis kit
- Robust and reliable for use in harsh or remote environments
