

Product group: 661 Product number: 755779

Consumables: Replacement test tablets for HR Total Hardness Kit

Product information

Test Parameter: Total Hardness Measuring Range: 5 - 500 mg/l CaCO3.

Supplied as box of 250 Tablets

Note:

1.

This test measures total hardness, i.e. the total content of calcium and magnesium ions in the water.
2.

The expression of hardness results is normally expressed as mg/l CaCO3 (calcium carbonate). This is a convention to allow the comparison of different results and does not necessarily indicate that the hardness is present in the water in only the calcium form.

Features

- Tablet Chemistry
- Foil-wrapped packaging for storage

Benefits

- Easy operation and exact reagent dosing
- High accuracy
- Foil-wrapped tablet reagents with a minimum guaranteed shelf-life of 5 years

Specification

General

Invent Hazard Material (IMO/EU) classification	C-9
