

Product group: 661 Product number: 762530

The Brix Refractometer measures concentration % of industrial fluids such as cutting/grinding coolants, oil/water concentrations, fluid/water ratios. Temperature compensated Refractometer is to be used with Sub Sea Test Kit.

Product information

The focusable eyepiece with high contrast scale system of Brix Refractometer gives easy to read scale readings. Units have rubber sleeves that cover the body of instrument to protect the sample solution from body heat to insure accuracy of readings obtained. Small length of 7.5" and weight of approximately 10 ounces makes this model completely portable.

Model: RHB-10/ATC, Range: 0 to 10% BRIX
