

BACTERIA COUNT TEST (10 PCS)

Product group: **661** Product number: **568568**

BT2 general purpose microbiological dip slides are used for rapid, on board monitoring of microbial contamination in water systems. They can be used to test waste waters and engine cooling waters. The slide is coated with TTC media which supports the growth of most common bacteria.

Product information

Features

- Easy 3 step procedure; dip in fluid, incubate and read results
- Convenient and cost effective on-site testing
- Incubate at 27 to 30° C for 24-48 hours for detection of bacteria

Benefits

- Helps prevent equipment breakdowns by detecting early signs of corrosion or contamination
- Enables on board testing

Specification

General

Invent Hazard Material (IMO/EU) classification	NA
