

# MD100 POOLCONTROL 6IN1

Product group: **661**      Product number: **768129**

The MD 100 6in1 Photometer is a portable handheld instrument designed for the testing of critical water parameters such as pH, chlorine, bromine, alkalinity, calcium hardness and cyanuric acid. This easy to use instrument is suitable to use for Potable water, Ballast Water, Sewage Water, Pool and Spa, etc.... where measurement of Total Residual Chlorine or Free Residual Chlorine is vital.

## Product information

The units supply accurate, reproducible results using high quality interference filters with long-life LEDs as a light source.

Tests are conducted using tablet reagents which give long-term stability. Test results are automatically stored with time and date for later review.
