

UNITOR DRINKING WATER COOLER W/ HEATER INOX - 220V

Product group: 163 Product number: 700050

The UNITOR Drinking Water Cooler w/ Heater is engineered to withstand the most demanding marine environments. Constructed from high-grade stainless steel, it provides outstanding durability and resistance to corrosion, ensuring a long-lasting, hygienic solution for ship crews. The unit features brass fittings for extended service life, even in harsh conditions. Operating silently, it offers both cooled and hot water functions, catering to various onboard needs. Utilizing the R-134a refrigerant, it functions within a medium pressure range, reducing wear and tear on the system and ensuring reliable performance in extreme climates.

Product information

This product supersedes product no: 708552

Features

- Stainless Steel Construction
- Dual Temperature Dispenser
- Brass Fittings
- R-134A Refrigerant
- Silent Operation
- Easy Maintenance
- Compact and Robust Design

Benefits

- **Regulatory Compliance & Certifications:** Conforms to key EU directives on machinery, electrical safety, electromagnetic compatibility, and hazardous substance restrictions.
- **High Safety Standards in Materials & Construction:** The pipes and welding materials are cadmium-free, preventing any risk of water contamination.
- **Superior Cooling Technology:** The cooling coil is externally wrapped around the stainless-steel water tank, preventing refrigerant from mixing with drinking water, unlike cheaper alternatives.
- **Dual Temperature Functionality:** Provides both cooled and hot water, catering to various crew needs.
- **Durable Construction:** Made from high-grade stainless steel, ensuring corrosion resistance and long-lasting performance in harsh marine environments.
- **Extended Service Life:** Equipped with brass fittings for enhanced durability and longevity, even under demanding conditions.
- **Efficient Refrigerant:** Uses R-134a refrigerant, which operates within a medium pressure range, reducing system wear and improving reliability.
- **Hygienic Design:** Stainless steel construction ensures easy cleaning and maintenance, promoting a hygienic water supply.
