

Product group: 658 Product number: 779166

NALFLEET™ BALLASTGUARD SBS 40 is a bisulphite based liquid product designed to be used for ballast water treatment system to neutralize the Total Residual Oxidant (TRO) or Total Chlorine

Product information

Features

- Liquid product at 38 - 40% concentration
- Designed to neutralize Total Residual Oxidant (TRO) or Total Chlorine
- Supplied in 25L pail
- Designed to be used for Electrochlorination or Chlorination based Ballast Water Treatment System

Benefits

- Neutralization of Total Oxidant residual to meet targeted control guideline

Specification

General

Invent Hazard Material (IMO/IU) classification	C-34
--	------

Physical properties

Appearance	Colourless
Density [g/ml]	1.300
Form	Liquid
pH	3.5 to 5.0

Documents

[SDoC and MD for IHM](#)

Directions for use

Transfer the product into the Ballast Water Dechlorination Chemical tank.

Note: Pls. refer and follow existing guideline from your ballast water treatment system on the operation.
