# CORROSION BLOCK CARTRIDGE 20" 25 MC

Product group: **672** Product number: **735121**

Achieve Superior Water Quality with CORROSION BLOCK

CORROSION BLOCK CARTRIDGE MC is a high-efficiency filter media designed to reduce the carryover of corrosion products and sediments in potable water distribution systems, ensuring cleaner and safer water.

## Product information

Why Choose CORROSION BLOCK?

Choosing Corrosion Block offers several compelling benefits. Its high-efficiency filtration uses advanced filter media to effectively remove impurities, ensuring high-quality potable water. Designed to operate under a range of conditions, it delivers reliable performance with consistent and dependable results. Complying with international standards, Corrosion Block guarantees the use of safe and non-toxic materials for potable water applications. This cost-effective solution reduces maintenance needs and protects your infrastructure, offering long-term savings.

Additionally, it is certified to international drinking water standards (NSF/ANSI/CAN 60), ensuring quality and safety.

### Features

Optimal Operating Conditions: Maximum flow rate: < 3.0 m<sup>3</sup>/hr Maximum pressure: < 8.0 BarG Maximum temperature: < 45.0°C Material: Made from non-toxic, potable water-safe polypropylene Compliance: Meets DM25, ACS, and NSF/ANSI 42 standards

### Benefits

Prevents Corrosion Carryover: Keeps your water free from harmful corrosion products and sediments. Reduces Red Water Events: Minimises the occurrence of discolored water, ensuring clarity and safety. Lowers Maintenance Costs: Decreases the need for frequent maintenance due to corrosion, saving time and money. Protects Assets: Safeguards your potable water system and distribution pipelines, extending their lifespan.

## Specification

### General

Invent Hazard Material (IMO/IU) classification	NA
