

Product group: 657 Product number: 766539

NALFLEET™ Pool Clarifier™ is a highly concentrated product based on specially formulated polymers that quickly clears cloudy water.

## Product information

This product supersedes product no: 625699

NALFLEET™ Pool Clarifier restores sparkling clear water by binding small particles into larger masses that can be easily removed by the filter. This product works while the filter is in operation, requires no premixing, contains no alum and does not affect the pH.

### Features

- Concentrated formula
- Contains specially formulated polymers
- Easy to use - no premixing
- Does not affect pH

### Benefits

- Clears cloudy water quickly
- Helps reduce chlorine usage
- Makes water sparkle

## Specification

### General

Invent Hazard Material (IMO/EU) classification	C-49
--	------

### Physical properties

Appearance	Clear
Density [g/ml]	1.04
Form	Liquid
pH	3-5

### Technical data

Solubility in water	Miscible in water
---------------------	-------------------

## Documents

[SDoC and MD for IHM](#)

## Directions for use

Before applying this product ensure that the filter is operating efficiently. Apply NALFLEET™ Pool Clarifier weekly or whenever the pool water has lost sparkle. Apply NALFLEET™ Pool Clarifier at the rate of 15ml per 10m<sup>3</sup> by pouring gently around the perimeter of the pool. Leave pump and filter running for 8 hours after application. If pool clarity has not been restored after 36 hours, repeat the treatment.
