

Product group: **436** Product number: **659151**

The 5,5m lance has been developed in order to enable chemical application and high pressure cleaning above the normal reach of any standard lance.

Product information

The lance has 3 telescopic tubes which, when extended, slide out to a full length of 5,5m. Inside the sliding tubes the fluid is transported using a 3/8" hose which starts at the trigger and exits at the end of the lance in a quick connector. The quick connector enables rapid changing of the nozzle according to the task at hand- 25 for high volume or 0 for spot cleaning. The lance can be used with both the 10:1 and the smaller 2:1 chemical pumps as well as the high pressure cleaners.

****Typical set up****

Pump > Hose quick connector M & F > Heavy duty hose > Hose quick connector F & M > 5,5m lance > 25 nozzle

Features

- 3 telescopic tubes reach up to 5,5m
- Light weight and easy to operate

Benefits

- Allows cleaning and access to elevated areas

Specification

General

Invent Hazard Material (IMO/EU) classification	NA
-------------------------------------------------------	----

Technical data

Operating pressure [bar]	270 maximum
---------------------------------	-------------
