

Product group: 422 Product number: 718890

1:1 chemical pump stainless steel 316 is made up of two main parts: a compressed air operated two-way piston air pump and a double-acting liquid pump.

Product information

This product supersedes product no: 637314

The Unitor 1:1 pump stainless steel 316 is designed to move a broad spectrum of fluids compatible with AISI 316, Viton and PTFE seals. It may NOT be used for other purposes or for pumping gasoline, or other explosive liquids. The unit is designed for 200 L drums; a spout and needle for flow control are supplied. Maximum permitted air pressure is 10 bar, this limit should NOT be exceeded.

Features

- Solid heavy duty design
- Easy handling

Benefits

- Efficient fluid transfer
- Reliable air operated unit

Specification

General

Invent Hazard Material (IMO/IU) classification	NA
--	----

Dimensions/Weight

Diameter [mm]	
Length [mm]	
Total Length [mm]	1240

Technical data

Air inlet connection [inch]	
Fluid outlet connection [inch]	
Operating pressure [bar]	
Ratio	1:1

Performance data

Flow capacity [l/min]
