A/C UNIT AIR TREATMENT

Product group: 609 Product number: 743460

The Unitor™ A/C Unit Air Treatment is specifically designed to be used in wall mounted and cassette type air-conditioned systems. The sachet can be easily installed into the air-conditioner filter with no additional equipment required. Every sachet contains 100% pure Australian Tea Tree Oil, which is being released in a sustained and controlled manner. The natural properties in tea tree oil vapor will offer continuous protection against pollutants such as mold, bacteria and viruses.

Product information

Features

- Continuous protection from mold, bacteria and viruses
