

Product group: 604 Product number: 547463

The dual-pressure switch is a safety device used in the refrigeration system. The dual-pressure control switch responds directly to system pressure changes on both high and low sides and can provide single-device control of the compressor.

Product information

Features

- Starts/stops compressors according to set point
- LP auto / HP manual
- Vibration and shock resistant

Benefits

- High reliability both electrically and mechanically
- High quality

Specification

General

Invent Hazard Material (IMO/IU) classification	NA
Product code	060-1243

Dimensions/Weight

Connection [Size/ Type]	1/4 FLARE
-------------------------	-----------

Technical data

Function	LP/AUTO
----------	---------

Performance data

Range	HP/MANUAL
-------	-----------

Documents

[SDoC and MD for IHM](#)
