

Product group: 609 Product number: 743466

Unitor Duct Air Treatment is a natural, biodegradable, and non-toxic gel block is used to sterilise the supply air and the entire air conditioning supply air duct works. It contains Pure Australian Tea Tree Oil which has natural anti-bacterial, anti-fungal, anti-inflammatory and anti-viral properties, and it is suitable to be used in all types of ducted air conditioning systems. Duct Air Treatment facilitates easy disinfection to prevent or control the spread of disease as required by MLC2006 Guideline B3.1.2 – Ventilation 2b.

Product information

Features

- Natural, biodegradable and non-toxic
- Consists of complex polysaccharides, surfactants, purified water and 10% tea tree oil
- Releases 10-45 micrograms of tea tree oil per cubic metre of air
- Formulated into a thermo-reversible solid water gel
- Melts at < 50 °C with decomposition
- Complies with Marine Labour Convention 2006 (MLC2006)

Benefits

- Continued use of Duct Air Treatment will help prevent the build up of bacteria, mould, Legionella bacteria and fungi which are found in marine HVAC systems
- The powerful active ingredient in Duct Air Treatment will also eliminate and oxidize the source of odours associated with bacteria and moulds, leaving the air fresh and clean

Specification

General

Invent Hazard Material (IMO/EU) classification	NA
