

Product group: **090** Product number: **699492**

Special Self-Shielded Flux Cored Wire (FCAW) for the welding of stainless steel depositing 29% Chromium – 9% Nickel.

Product information

Stainless Steel flux cored welding wire similar to Tensile-328N welding electrode.

Application include for welding dissimilar steel grades (CMh-steel to stainless steel), buffer layers before hardsurfacing, difficult to weld steels e.g. spring steels, high-speed steels, tool steels and manganese steels.

Features

- Welding wire for most high-alloy steels like spring-steels, carbon steels, tool steels etc.
- High resistance against cracking, heat and corrosion
- Extremely hard wearing, polishes to high gloss with low friction

Benefits

- For maintenance repair welding of wide range of steels i.e. dissimilar and difficult to weld steels
- · Not required sielding gas cylinder

Specification

General

Invent Hazard Material (IMO/EU) classification	NA

Dimensions/Weight

Diameter [mm]	1.2
Weight [kg]	5.0

Technical data

AWS	A5.22: E312T0-3
Polarity	DC+
Voltage [V]	24
Wire Speed (m/min)	8.1

Variants

Product name	Product number	AWS	Diameter [mm]	Invent Hazard Material (IMO/EU) classification	Polarity	Voltage [V]	Weight [kg]	Wire Speed (m/min)
