

Product group: **095** Product number: **699264** 

Low hydrogen, high tensile electrode for welding of mild steel and ship quality steel.

# 

#### **Product information**

This product supersedes product no: 605857

A reliable basic all-around LMA electrode for unalloyed and low alloyed ship quality steels, high deposition rate, deposit with high resistance against impact and cracking. Easily removable slag, good building properties.

#### Features

- LMA electrode
- Unitor high density polyethylene packing
- Approved by classification societies for higher tensile steels
- Deposit recovery 129%

# Benefits

- Optimised formula for shipboard maintenance welding giving high deposition and excellent performance
- Electrodes can be exposed longer in the open
- Long storage lifespan without moisture pick up
- In compliance with maritime rules and regulations

# **Specification**

# General Dimensions/Weight

Invent Hazard Material (IMO/EU) classification	NA	Diameter [mm]	2.5
		Weight [kg]	4

#### Technical data

AWS	E7018
Polarity	DC +/-

#### Performance data
