Wilhelmsen

Product group: **096** Product number: **606458**

Tin-bronze electrode for welding copper and copper alloys.

Product information

This product supersedes product no: **558445**

Electrodes for welding bronze, copper or brass to itself and to steel, cast iron and nickel alloys.

Application include joining of brass and tin-bronze as well as joining these to steel and cast iron. Also for building up parts, or filling cavities.

Features

- Unitor high density polyethylene packing
- Superb arc stability
- Easy slag removal and smooth weld surface
- Suitable for most copper alloys

Benefits

- Can be stored for long time without moisture pick up
- Easy to use and covers a range of copper and copper alloys
- Little surface treatment needed

Specification

General

Invent Hazard Material (IMO/EU) classification	NA

Dimensions/Weight

Diameter [mm]	3.2
Weight [kg]	1.4

Technical data

AWS	A5.6: E Cu Sn c
Polarity	DC+

Performance data

Amperage [A]	90

Documents

SDoC and MD for IHM
