

ELECTRODE CABINET COMPACT FULL

Product group: **094** Product number: **670001**

Compact cabinet for arc welding electrodes, including welding electrodes Also available empty, product number 669999

Product information

The «mini» electrode storing cabinet is designed to contain a limited number of electrode packages, but still covering all normally occurring welding repairs on board

GPO-302N in 2,5 and 3,2mm size for all mild steel repairs

LH-314N 2,5mm for ship quality steel repairs on hull and deck plates being part of the structural strength of the ship as well as cast steel components.

18/8-321N 2,5mm for stainless steel.

TENSILE-328N 2,5mm for «problem steels" like spring steel, chrome-nickel steels, tool steels and other steels that are difficult to weld.

NICKEL-333N 2,5mm and NIFE-334N 3,2mm in combination is often required for cast iron repairs.

ALUMIN-355N 3,2mm for seawater resistant aluminium.

ALBRONZE-344N for bronze alloys and for joining these to steel and cast iron.

The range is selected for covering the widest range of applications with maximum 150A welding current and is a good standard selection of electrodes for the welding machine UWI-150TP

Features

- Compact design with easy access to contents and separate room for the welding handbook
- Sturdy, corrosion resistant construction from electrogalvanized steel plates, with final coating by powder spraying and baking.
- Shelf insert for six half packages and three full packages of electrodes.
- Separate room for the welding handbook
- Label for correct position of electrode packages

Benefits

- Full overview of a versatile ministore of electrodes for most applications ensures correct update of the content.
- The high degree of resistance against scratches and corrosion makes the cabinet well suited for maritime conditions and use in a workshop environment.
- The easily available handbook provides detailed instructions for use on all the materials covered by the content.

Specification
