ELECTRODE CABINET COMPACT EMPTY

Product group: **094** Product number: **669999**

Compact cabinet for shipboard welding electrodes storage and management.

Product information

The «mini» electrode storing cabinet is designed to contain a limited number of electrode packages, but still covering all normally occurring welding repairs on board. Recommended selection is the following:

GPO-302N in 2,5 and 3,2mm size for all mild steel repairs

LH-314N 2,5mm for ship quality steel repairs on hull and deck plates being part of the structural strength of the ship as well as cast steel components

18/8-321N 2,5mm for stainless steel

TENSILE-328N 2,5mm for «problem steels» like spring steel, chrome-nickel steels, tool steels and other steels that are difficult to weld

NICKEL-333N 2,5mm and NIFE-334N 3,2mm in combination is often required for cast iron repairs

ALUMN-355N 3,2mm for seawater resistant aluminium

ALBRONZE-344N for bronze alloys and for joining these to steel and cast iron

The range is selected for covering the widest range of applications with maximum 150A welding current and is a good standard selection of electrodes for the welding machine UWM-150TP

The cabinet is also available with above mention electrodes and welding handbook under product number 670001

Features

- Compact design with easy access to contents and separate room for the welding handbook
- Sturdy, corrosion resistant construction from electrogalvanized steel plates, with final coating by powder spraying and baking.
- Stainless steel shelf for six half packages and three full packages of electrodes.
- Separate room for the welding handbook
- Label for correct position of electrode packages

Benefits

- Full overview of the electrodes.
- The high degree of resistance against scratches and corrosion makes the cabinet well suited for maritime conditions and use in a workshop environment.

Specification

General

Invent Hazard Material (IMO/EU) classification	NA
