

Product group: 192 Product number: 310331

The UPC-310ML is ideal for cutting all electrically conductive steels up to a maximum thickness of 12mm. It is able to function on any supply voltage between 110 V to 230 V.

Product information

This product supersedes product no: 310310

EU Ecodesign Compliant Welding Machine

Supplied with:

Torch with 6m cable (connected directly to machine)
Return clamp with 6m cable and DIX25 connector
3.5m primary cable mounted on the machine
Initial supply consumables kit consisting of 2 x Electrode, 2 x Tip Drag and 1 x Cartridge
Air regulator with filter and water separator mounted on machine

Features

- Lightweight, portable and easy to operate
- Performs recommended cut of 8mm at cutting speed of 400mm/min and quality cut of 10mm at cutting speed of 200mm/min
- Equipped with Intelligent Voltage Reading (IVR) function to indicate the end of life for plasma consumables
- Torch with safety trigger as per CE standard and "Reset" button" to avoid accidental trigger
- IP23 ingress protection with high resistance to dust and moisture

Renefits

- Safe and compliant for maritime and outdoor useThe plasma cutter may easily be passed through manholes and brought to any workplace on board vessel for
 maintenance and repair works
- Excellent cutting performance and versatile as it can cut a wide range of electrically conductive steels such as mild and stainless steels, castings, aluminium, titanium as well as copper alloys
- · Quality cut with lesser distortion and smaller Heat-Affected Zone (HAZ) compared to traditional oxy-fuel cutting process
- Uses Pilot Arc and not High Frequency (HF) blowback ignition system which does not interfere with shipboard radio communication or other electronically controlled
 equipment
- Spare part kit available for easy repair and to minimise downtime

Specification

General

Invent Hazard Material (IMO/EU) classification	

Dimensions/Weight

Dimensions L x W x H [mm]	430 x 160 x 350
Weight [kg]	15.4

Technical data

Air flow [l/min]	100
Air pressure [bar]	5.5
Duty cycle [%]	20%
Ingress protection	IP23S
Temperature class	Н
Voltage [V]	1 phase 110 - 230 50/60Hz main supply
