

FLOWCONTROL VALVE, ARGON

Product group: **197** Product number: **597310**

Flowcontrol needle valve for gas flow adjustment

Product information

The flow-control needle valve used at the gas inlet of the TIG-torch or the wire feeder gives final flow adjustment (more precise flow control) and is available at the work place regardless of distance to the gas cylinder/gas outlet (typically when gas cylinder/regulator at distance from work piece).

Specification

General

Invent Hazard Material (IMO/EU) classification	NA
