ELECTRODE HOLDER UNIKING 600AMP

Product group: **196** Product number: **511006**

Electrode holder 600 amps for electrode diameter 1.6-8.0 mm.

Product information

Features

- In accordance with Standard 2006/95/EEG concerning low voltage, and conform to EN 60974-11
- Fully insulated electrode holder with the lever screw locking mechanism design
- Strong and simple construction

Benefits

- · Offers higher protection from electric shocks or electrocution for welders compared to other design of electrode holders
- Prevent accidental electric arc sparking as no exposed conductive components

Specification

General Performance data

Invent Hazard Material (IMO/EU) classification	NA		Range	Welding Cable sizes 70mm2 only.
