

TIG TORCH T-150 W.DIX 25 CONNECTOR

Product group: **197** Product number: **150000**

The T-150 torch is a lightweight torch well adapted to general applications onboard.

Product information

This product supersedes product no: **607812**

Features

- The torch is rated at a full 150A welding current at 100% duty cycle- at lower duty cycles higher current may be used
- The handle ensures a secure grip and reduces heat transfer to the welder's hand
- A screw type gas valve opens fully at only 3/4 turn, switches the gas on and off
- Being gas cooled, the torch has low weight and is easy to operate for repair and maintenance work in all positions
- Unitor supplies nozzles of aluminium oxide (AL2O3), recognisable by the pink colour. These nozzles will stand for higher temperatures than the ordinary ceramic cups, which are recognised by a light brown color. Note that TIG gas nozzles are brittle and may break if dropped or treated carelessly
- A remote amperage control can be fixed on the TIG torch by velcro straps in order to adjust amperage during welding

Specification
