

AUTODARK 820 FRESHAIR COMPLETE

Product group: **196** Product number: **779034**

Autodark 820 fresh air complete consisting of a welding helmet and a fresh air system.

Product information

This product supersedes product no: **767000**

Features

- Adjustable shade of darkness between shade 6 - 9 or shade 9 - 13. There is a switch to choose between the 2 option.
- Darkening filter powered by solar panel (the light from the arc)
- The reaction time from dark to light can be adjusted, according to the preference of the welder, from "Short" 0.1 sec to "Long" 1.0 sec.

Benefits

- The lightweight helmet is worn with a belt around the waist so that the unit and the air hose do not cause any obstruction during welding. The inside of the belt is designed with a soft shock absorbent material. The extra wide belt ensures that the carried weight of the unit is distributed over the full width and is not pressing in the back during use.
- A rechargeable battery provides the power to the fan motor. Depending on the contamination of the filter, the battery last 9hours. An acoustic sound provides a warning signal when the voltage of the batter is too low. A separate charging station will be supplied with the helmet.

Specification

General

Invent Hazard Material (IMO/EU) classification	NA
--	----

Approvals

Conforms to relevant standards: CE, ANSI Z87.1, CSA Z94.3, AS/NZS
