

# SAFETY HELM W/FACE SH.

Product group: **196**    Product number: **619114**

Safety helmet mounted face shield for protection of the welder's eyes and face against rays, heat and sparks during welding.

## Product information

A clear safety glass is placed in the fixed frame under the flip-up frame protecting the eyes when chipping slag. The flip-up front frame is fitted with a filter shade glass with shade selected according to welding current used. The filter shade glass is protected against spatter by a clear protection glass fitted in front of it. Shade 11 glass is supplied as standard with the shield.

Proper protection is absolutely necessary to guard the welder against the danger of ultra-violet rays and bits of welding slag in the eye.

Unitor face shields for welding are made from a lightweight, robust plastic material which is unaffected by heat, cold or moisture, and both glasses and shields conform to relevant EN standards.

### Features

- Safety helmet
- Flip up frame
- Lightweight design
- Adjustable headband
- Conforms to relevant standards: CE approved and conforms to EN 175:1997

### Benefits

- Protects welder from head injury
- Protects welder when chipping slag and when grinding
- Comfortable to use
- Fits all head sizes
- Provide safety and long lasting quality

## Specification

### General

Invent Hazard Material (IMO/EU) classification	NA
--	----
