

Product group: 196 Product number: 619114

Safety helmet mounted face shield for protection of the welder's eyes and face against rays, heat and sparks during welding.

### **Product information**

Proper protection is absolutely necessary to guard the welder against the danger of ultra-violet rays and bits of welding slag in the eye.

Unitor face shields for welding are made from a lightweight, robust plastic material which is unaffected by heat, cold or moisture, and both glasses and shields conform to relevant EN standards.

A clear safety glass is placed in the fixed frame under the flip-up frame protecting the eyes when chipping slag. The flip-up front frame is fitted with a filter shade glass with shade selected according to welding current used. The filter shade glass is protected against spatter by a clear protection glass fitted in front of it. Shade 11 glass is supplied as standard with the shield.

### **Features**

- Safety helmet with Flip up frame
- Lightweight design
- Adjustable headband
- Conforms to relevant standards: CE approved and conforms to EN 175: 1997

#### **Benefits**

- Protects welder from head injury
- Protects welder when chipping slag and when grinding
- Comfortable to use
- Fits all head sizes
- · Provide safety and long lasting quality

## **Specification**

#### General

Invent Hazard Material (IMO/EU) classification

NA
