# WELDING SPATTER BLANKET 1 X10M

Product group: 196      Product number: 646067

Welding spatter blanket is an essential workshop safety item to provide protection against sparks, spatters, and flying metals especially during hot work.

## Product information

Non-asbestos woven glass fabric with a fire retardent weavelock, for protecting combustible materials and delicate machinery from spatter and spark during welding and cutting.

### Features

- Produced according to EN 13501-1 Std A2 Level
- Supplied 1 x 10m on roll with nominal thickness 0.82mm
- Max operating temperature 550 °C.
- The welding blanket is supplied in a carton box

### Benefits

- Safe to use i.e., non-asbestos
- Provides excellent shield against fire and heat especially when performing grinding, welding, cutting and other activities that create sparks, spatters, and flying metals

## Specification

### General

Invent Hazard Material (IMO/IU) classification	NA
