

Product group: 196      Product number: 633149

Anti spatter spray for wire welding (MIG/MAG).

Product information

By spraying on a thin layer on each side of where the welding is to take place, a barrier is formed preventing the molten globules from burning on to the surface.

Features

- Supplied 6 pcs can of 400 ml in a box
- The spatter can easily be wiped off with a brush after welding

Benefits

- The anti spatter spray prevents the welding spatters from sticking to welding torch nozzle and to the metal surface being welded
- Time consuming chipping and grinding is prevented

Specification

General

Invent Hazard Material (IMO/EU) classification	NA
