

Product group: 196 Product number: 627885

Electrode holder assembly 200A with 3m cable 35 mm2 and DIX 70 connector for use especially on UWI-203TP welding inverter.

Product information

Unitor's fully insulated electrode holders are of the lever screw type and feature an especially robust and safe clamping arrangement for the electrodes. There are three types of electrode holders available: the 200A, 400A and 600A.

Features

- In accordance with Standard 2006/95/EEG concerning low voltage, and conform to EN 60974-11
- Fully insulated electrode holder with the lever screw locking mechanism design
- Strong and simple construction

Benefits

- Offers higher protection from electric shocks or electrocution for welders compared to other design of electrode holders
- Prevent accidental electric arc sparking as no exposed conductive components
- 'Plug and Play' with 3m cable and DIX connector to welding machine

Specification

General

Invent Hazard Material (IMO/EU) classification	NA
