

Product group: 176 Product number: 233148

Special mitten with woven kevlar outer layer and ample insulation against heat in the inner layers, with a service temperature of up to 600 degrees Celsius.

Product information

The mitten should always be kept by acetylene cylinders and outlets to make it possible to close the valve in case of fire.
Also suitable for handling hot workpieces.

Features

- Comply to: EN 388:2003 and EN 407:2004
- Completely made from para-aramid felt
- Can be used on both sides
- Available in one size only (size 11)

Benefits

- Lightweight and comfortable mitten
- Good mechanical resistance and a good cut perforation resistance
- May be used on either right or left hand
