

Product group: 093 Product number: 174326

Bare brazing rod for copper, copper alloys and steel.

Product information

This product supersedes product no: 514240

A universal bronze welding rod for braze welding of cast iron, steel, copper, brass, bronze and malleable castings. It can be used for joining dissimilar metals to each other and for overlaying bearings, gliding surfaces, etc. This rod is not flux-coated, and should be used with Unitor Bronzeflux 261 PF.

Features

- High tensile strength
- Low melting point
- Easy flowing

Benefits

- Job is done faster as very user friendly i.e., easy flowing
- The additiön of Si, Mn and Sn guarantees a strong and high-quality deposit

Specification

General		Technical data	
Invent Hazard Material (IMO/EU) classification	NA	AWS	A5.8: RB CuZn A

Documents

[SDoC and MD for IHM](#)

Directions for use

The label on each container fully identifies the contents, and also gives basic information on application areas. Complete information on each rod, and instructions for use are given in the handbook for Maritime Welders.

Flame setting: Use neutral or slight oxygen surplus
