

MS-200 2.0 X 500M 3,5KG

Product group: **092** Product number: **539551**

Gas welding rod for steel.

Product information

Gas welding rod for unalloyed steels. Tensile strength 390-440 N/mm². Gas welding may be used for up to 6 mm thickness. For larger dimensions electric arc welding is recommended.

Features

- Copper coated
- Low silicon content
- Can be used for thin as well as heavier sheets

Benefits

- Prevent ruting during storing
- Fluid molten pool makes welding easy
- Large working range

Specification

General

Invent Hazard Material (IMO/EU) classification
