

Product group: 176      Product number: 778143

Trolley for two cylinders securing cylinders during work and transportation.

Product information

This product supersedes product no: 534982

It is specially designed by Unitor for on board use, and has a low center of gravity which will keep it standing upright even at 30° out of vertical with all equipment mounted.

The strong lightweight steel construction is hot zinc coated for high corrosion resistance. It is fitted with solid rubber wheels for easy transport. Handles at top and bottom ensure easy carrying and lifting. Two double brackets for Unitor rod containers give the possibility to include a selection of four different rod types when transporting.

The trolley is tested and certified according to the International Labour Office for the testing and examination of lifting gear used in the loading and unloading of ships.

Test load 100 kg. Safe Working Load (S.W.L.) 50 kg

Features

- Sturdy lightweight construction fitted with rubber wheel
- Cylinders firmly locked in place and secured
- Tested and certified for lifting

Benefits

- Fast and easy transportation
- Prevents accidents caused by cylinders falling over
- Can safely be lifted
