

Product group: 176      Product number: 778145

Trolley for two cylinders securing cylinders during work and transportation.

Product information

This product supersedes product no: 176016

This trolley is specially designed for on board use. The sturdy but lightweight construction of steel pipes is fully galvanized for corrosion protection. The trolley takes both 40 l and 50 l size cylinders, which are firmly secured in the trolley by means of two clamps with wing screws. As the weight of two full gas cylinders is approximately 150 kilos, the trolley has been fitted with extra large rubber wheels for easy mobility. For transport by crane the trolley is fitted with a lifting bow.

As safety in transportation and lifting of gas cylinders is a paramount demand, the trolleys are tested and certified according to the International Labour Office for the test and examination of lifting gear used in the loading and unloading of ships. The trolleys are test loaded to 400 kg, and certified for safe working load (S.W.L.) 200 kg.

Being intended to function as a complete mobile gas welding workshop, the trolley is fitted with a large, lockable accessories box. Weight of the trolley itself is 28 kilos.

Features

- Sturdy lightweight construction fitted with large rubber wheel
- Cylinders firmly locked in place and secured
- Tested and certified for lifting

Benefits

- Can fast and easy be brought to work locations
- Prevents accidents caused by cylinders falling over
- Can safely be lifted

Specification

General

Invent Hazard Material (IMO/EU) classification	NA
