

Combination of accessories for UCT-500 gas welding/cutting kit extending its use and especially for heating applications.

Product information

SHANK The shank is delivered with hose sockets for 6mm hoses. Non-return valves are included in the sockets.

NON-RETURN VALVES

The non-return valves are for mounting on UCT-500 shank in order to prevent back flow of gas into hose. They are delivered with nuts. The non-return valves for 6mm hoses are also mounted on the shank when delivered.

WELDING AND HEATING ATTACHMENTS The size indicates consumption of oxygen in nl/h. Acetylene consumption is approximately 10% lower. Material thickness for welding refers to mild steel.

Features

- Equipment conforms to relevant European Norms
- Accessories to the UCT-500 gas welding/cutting kit especially on the heating attachment

Benefits

- Safe and compliant
- Extend the use of UCT-500 gas welding/cutting kit for different gas welding and heating requirements
